

Career Talks

Friday 21st January 2022

Period 5

Year 9 and Year 10 Students:

We are excited to be hosting Career Talks for you on Friday 21st January, P5!

- **You will be able to choose 2 talks to attend. Talks will last 15 minutes each and you will have a chance to ask questions at the end of each talk.**
- **Your P5 teachers will connect to MS Teams on their computers. The presenters will be on the big screen and the teacher's camera will face the class so the presenter can see you.**
- **After your first talk, you will move to another classroom for your second talk.**

- Please scroll through the following slides for more information about our speakers.
- Then please complete the MS Form [HERE](#) to submit your choices.
- All students must attend 2 Career Talks

Careers in Chemistry with David Alker (Pfizer Global Research & Development; Pharmaceuticals)

**Students will enjoy this if they are interested in a
career in chemistry or pharmaceuticals**

BBC Broadcaster Operator Apprentice: TV & Radio with Ben Barnett (ex student)

Students will enjoy this if they...

- **have a passion/interest in the world of television**
- **potentially see themselves behind the scenes or in front of the camera**
 - **are unsure whether to do university or an apprenticeship.**

Royal British Legion - Assistant Director of HR (Not for Profit) with Phil Bevan

Students will enjoy this if they...

- **enjoy working with people and also like thinking about how groups and larger organisations actually work (and don't)**
- **Would like to hear about the difference between working in commercial and charity organisations**

Private Investigation (Insurance) with Michael Bott

Students will enjoy this if they...

...like investigating and solving (this job involves using various methods to detect and cut down on insurance fraud)

Talk would be based on the more interesting aspects of including surveillance (A less glamorous MI5 type operation)

IT Management - Chambers Waste Management PLC with Andy Brittain

Students will enjoy this if they...

- **want to see how Chambers employs all types of people, both qualified and unqualified, in the many different roles we have. I will show you the waste management process from collection to disposal and the different jobs available.**
- **are curious to see how we use IT in the trucks and at our five-million-pound recycling centre in Guildford**
- **want to see how 98% of the rubbish we collect in bins and skips is recycled? Join this session to find out how through a combination of live feeds from CCTV, recorded video, and a short presentation.**

(Backstage) Theatre (Yvonne Arnaud); Production & Technical with Liza Cheal

Students will enjoy this if they...

...are interested in the backstage technical side of theatre – lighting, sound, staging, rigging.

Medicine / Doctor – Partner GP Mill Medical Practice With Dr Su Clark (ex student)

Students will enjoy this if they...
...are considering a career in medicine
...enjoy working with people and in a team

Global Brand Management (charity sector) with Jacqueline Dragon

Students will enjoy this if they...
**...are interested in learning about how to start a
career in the creative industries, not for profit
sector or brand management.**

Law / Lawyer (Employment Law) with Hannah Ford

**Students will enjoy this if they...
...are keen to learn about a possible career in law.**

Marketing/Technology/Communication with Jonathan Griffiths

Students will enjoy this if they...

- enjoy any form of communication (written, audio, visual etc.)
 - like storytelling
 - use social media channels
- the idea of selling 'something' but don't want to be a salesperson
(Some of Jonathan's work has been with the Olympic Games and Rugby World Cup)

National Grid - Programme Manager – Utilities with Anne Guhur

Students will enjoy this if they...

- **want to see how a career evolves and how important it is to embrace change and build resilience. (Focus on soft skills)**

nationalgrid

NHS Clinical Psychologist – Healthcare with Dr Clare Henderson

Students will enjoy this if they...

...are interested in psychology, mental health and
working with people.

Accountancy - with Chris Hurran and Hannah Chapman

Students will enjoy this if they...
...are interested in Accountancy

This talk will cover all areas of accountancy, opportunities that RSM offer and what working for a network that employs 50,000 worldwide can mean for opportunity. Will also cover salaries, grade requirements and study programmes offered, which will highlight the difference between those joining after A levels and those joining post degree

Financial Services /Information Technology - with James Campbell McClean

This talk may interest students because...

...they will be able to see how someone that didn't attend university, had a less than stellar academic record but had ambition and a work ethic built a rewarding career in Information Technology.

James' view of life is that there is no failure, only learning opportunities.

Occupational Therapist - Healthcare with Nicola Nice

Students will enjoy this if they...

- **are considering a health or social care profession**
 - **are creative and want to help others**
- **are interested in working with people with disabilities / disadvantage.**

Consultancy (Tech Coding/Life Coaching/Business ownership) with Dave Nyss

Students will enjoy this if they...

- **are considering setting up their own business and would like to know what's involved**

Crime Scene Investigator - Met Police(Forensics) with Robert Philo

Students will enjoy this if they...

- Have an interest in science
 - Enjoy working outside
- Have interest in helping people

Pharmaceuticals (with a focus on finance, sales, marketing, digital and supply chain) with Paul Reynolds

Students will enjoy this if they...

... are considering a career in the science or pharmaceutical industry. The talk will also include a far broader range of career opportunities in the industry (finance, marketing, sales, digital, supply chain etc). Paul's aim is to demonstrate that the industry can find space for almost any good student.

NHS Matron for Cancer Services – Healthcare with Stephen Rowley

For females AND males if they want a job that is....

- **Interesting**
- **Can pay well**
- **Challenging, enjoyable and rewarding**
- **Able to open up lots of different opportunities**

Information Technology with John Sainthouse

**Students will enjoy this if they...
...find technology and computing interesting and
want to hear how this can lead to a huge range of
job opportunities and a varied and interesting
career.**

Corporate Real Estate/Construction/Facilities Management with Graeme Steele

Students will enjoy this if they...
...enjoy problem solving, varied work, opportunities to travel and work in different parts of the UK or different countries around the world, enjoy working in teams, building and creating

Technical Engineer; Refrigeration and Air Conditioning

Students will enjoy this if ...

- They like engineering and solving problems
- They like physics and chemistry, in particular calculating pressures and temperature
 - They would like to learn a set of skills, both theoretical and practical, with a recognised qualification
 - They might like to work for themselves or for a larger company
- They might like to be part of solutions that make cooling more environmentally sustainable in the future
- They would like to work for an industry that will always be needed and has a long history

Creative Design with Pete Champion (I-Am)

About I-Am...

"We have assembled some of the best creative minds from across the globe including brand consultants, architects, interior designers, service designers and UX specialists. We are in our element when these virtual and physical worlds collide."

Students will enjoy this if they...

- Enjoy teamwork
- Enjoy the creation and delivery of projects
- Are interested in branding or interior design
