

## Unifrog

As a part of our Careers Programme, Broadwater School have purchased the Unifrog Careers platform which is free of charge to all our students and can be used during and post Broadwater up to the age of 18. We are launching Unifrog by year group and will have rolled it out to all students by the end of this academic year. Year 11s now have access and Year 10s will have access before the Easter holidays.

Unifrog can help students explore their interests, compare apprenticeships, further education courses and university courses, then apply successfully. They can upload all their activities (anything indirectly or directly careers related, extracurricular activities, volunteering, qualifications, webinars attended and more) and Unifrog starts to build a CV with this information. There is also a personal statement tool to help them when then time comes to make applications and many other tools. Students can also access a multitude of events, both live and virtual, from the site as well as explore career options based on their personality, skills and interests.

## Labour Market Information

Once your child begins thinking about what kind of careers they might enjoy, they can look at Labour Market Information (LMI) to find out about future jobs in the local area, understand the skills needed for certain roles and the demand for future employment.

*LMI helps to break down the complex 'world of work'— ranging from descriptions of different careers, their entry routes, promotional prospects, salaries paid, skills and qualifications needed, etc. Crucially for young people, LMI also covers future demand – what kinds of jobs will be in demand after leaving school and what kinds of skills will be needed.*

Please visit [our website](#) to see more LMI resources, however, one of the most popular tools for LMI is the '[Careerometer](#)' which allows students to choose three different careers at a time and compare them. (see example below):

## **Updates from Activate Learning**

### **Guildford College – Digital Concept Art and Animation (Level 3)**

Do you have students who aspire to a career in gaming, digital art, or media? The UAL accredited L3 course is the perfect introduction to industry, as it provides students with the broad knowledge base and digital skills needed for employment, alongside practical workshops, the opportunity for individual instruction, work on real industry briefs, engaging lectures, and a true insight into the professional lives of creatives. After studying for this qualification, students will be equipped to go straight into employment or progress into Higher Education. Students will learn how to use a range of creative software packages such as Photoshop, Illustrator, Premiere Pro, Auditions, and 3DS Max on industry-standard PC and Apple computers. For more information, please [click here](#).

### **Accommodation at Merrist Wood College**

Did you know that if your students don't live in Guildford, Surrey, or the surrounding areas, they can apply for [accommodation](#) at Merrist Wood College? There are just over 100 residents on campus, which makes for a supportive community especially for students living away from home for the first time. All students studying a course at Level 2 or above (including degree-level programmes) can apply for accommodation – more information including fees, applications, and facilities can be found on this link [Accommodation - Merrist Wood College \(activatelearning.ac.uk\)](#)
